Jenna & Curt

Oh Erin,

I've been trying to come up with a response to thank you that lives up to the joy your pictures have given us, but I just don't think I have the words!

It was such perfect timing to receive them, Curt and I had just sat down to relax for the evening when your email popped up on my phone last night. We eagerly started the slideshow and watched the memories from our perfect day pour in for two hours! We shared so many smiles, laughs, and heartwarming moments reminiscing. It was the perfect way to spend our Thanksgiving weekend - appreciating all those who came to support our marriage, and being truly thankful for all the amazing people that are in our lives, yourself included.

We couldn't imagine having our wedding day captured by anyone else. Thinking of the excitement, energy, and passion you brought to our day makes our hearts so full. You also touched the lives of so many people who shared our wedding day with us! Our family and friends cannot stop talking about how great they think you are, and how it is so unique and inspiring to see a photographer get as involved and connected as you did.

You are not only an incredible photographer, but an amazing human being.

We will cherish these photos and the feelings they stir forever.

THANK YOU! XoxoxJenna and Curt
