Melissa and Aaron

Hi Erin,
Thank you so much for the wedding pictures, they're amazing! It was such a perfect day, and I'm so glad you were able to be part of it and to capture it so perfectly. There were so many pictures of tiny moments I didn't even remember until I saw them. I'm pretty self conscious, especially when there are cameras around, and I mean this in the best way possible, but there were so many moments where I forgot you were there at all and was just caught up in the moment, and the pictures show that. I love it. You were so wonderful to work with. When Aaron and I decided to get married in a place we'd never been, with only a small group of close friends and family, we knew that finding the perfect photographer would be the most important part, and I'm so glad we found you. Thank you for helping make our perfect day something we will never forget. (and if its helpful yes you can certainly share it! I know when I was looking for a photographer, testimonials were a huge part of that, and yours were a big help in getting me to reach out to you, so if my words can help anyone else reach out to you too, I would be honoured.)

Melissa
