# Tesia & Adrian

Dear Erin,

We knew when we booked you over a year ago, we were going to have incredible photos from our wedding. This was obvious from your website and social media - your photos speak for themselves. There is artistry, movement and emotion in every picture you take. So even though we were expecting gorgeous images, we are still absolutely stunned by the photos we have seen of our wedding so far. Somehow, as well as beautiful composition, you have managed to capture the *feeling* of the day and those moments. This is truly a gift.

What we didn't know when we booked you was everything else you would bring to our wedding: an immediate best friend for the day who made us and our families feel completely at ease, a feeling of total trust and calm amidst the wedding whirlwind, laughs and adventure traversing bluffs, beaches and forests, you were subtle in those quiet moments and took total charge when we needed you to. You anticipated our needs before we knew them, and your creativity brought us some of the most beautiful photos we could dream up.

So thank you, Erin, from the bottom of our hearts, we are so grateful to have found you. These photos are an irreplaceable reminder of the joy we felt on our wedding day, and we will treasure them for all the years to come.

With endless gratitude,  
Tesia & Adrian
